SPRING 2014

## President Corner:

Greetings Fellow Campers:

I hope you have all had a good fall/winter since our last meeting. The season hasn't been too bad for us (keep your fingers crossed) so far but we have suffered some damage due to fallen trees and a few members have had property damage due to these trees. We hate to see that happen but we need to remember where we are located trees do come down and the potential for damage can occur to most any member. Lets all offer to help those that have had damage in any way we can.

Over the past few months the board has been meeting and discussing many issues that have come up in the camp and making plans for the future benefit of the members. We have had our inspections necessary for the additional work done on the clubhouse addition and passed them all. We are now in the process of replacing several items for our kitchen that were very old and in need of repair/replacement. Our goal is to have the kitchen completely together in plenty of time for our Memorial Day event. Currently we are busy planning our youth center that we hope to have constructed this spring/summer. Stay tuned....

Speaking of that event and thinking of others, remember, this is your club and the outcome of these events is up to everyone to contribute in a number of ways. Volunteers are always needed so if you don't volunteer for something then please don't complain... Spring is just around the corner, I hope (☺). Please remember to watch our website for important information and needs to get ready for camping season.

Lastly it may be good to re-read your club rules book and remember the dos & don'ts of the club. Tarps need to be removed when spring arrives, cleanup needs to be done and if you have not heard, we are strictly enforcing the rules for selling memberships, including running credit checks on proposed new members. If you are not familiar with the process to sell please become familiar with the rules as posted on our website. These rules will also be posted in the clubhouse or you can ask any board member.

Hope to see most of you at our monthly meetings that are held at 10:00 AM on the first Sunday of the month beginning in March. If you want to know what is going on, attend the meetings!

Respectfully yours,  
Mike Brust – President

## Ranger Corner:

Here we are enjoying winter at Pilaguamish. It's started out very mild, cold, but mild. The month of January changed all that. We had it all in January and February, rain, damaging winds, the ever popular snow fall, and the even more popular power outages. That being said, we are still here pressing on.

We have a lot of projects under way. A bit of good news, we will have the kitchen ready for Memorial Day. We are adding some different equipment to make your dining experience more pleasant. We are doing an extensive makeover on the men's bathroom in the club house. New flooring, new toilet, and new plumbing for the sinks. We are in the process of getting a firm plan for the building for the Youth Center, which will be located behind the Clubhouse, across from the Library. Lots to do. I'm sure we will be looking for some volunteer help at different stages. If you're interested in helping let me or one of the Board members know.

We still have a bit of cold weather and probably more snow (not like the east coast, hopefully) so if you do come up make sure you disconnect your hoses and turn off your frost free. Look around your area for trees that may have been affected by the wind. The lower 400 area has taken a beating because of the clear cut on the property next to ours. It's always a good idea to come up and at least check your place during the winter months, even if you're not coming to stay. If you have any questions or concerns please let us know. We are looking forward to Spring and seeing all your smiling faces again. Stay warm, Ranger Randy

New Youth Fund Raiser for 2014 Tickets on sale starting March 2nd - Club House  
Before and after the meeting
